Pearl River Sunday 11/6/26

T. H. Pfeiffer Esq
Dear Mr Pfeiffer.

I am writing to say I wish to correct name of party whom I mentioned in Saturday H.M. report; as Off. Totten, while standing around, some one mentioned that the party whom I afterwards connected with was "Off. Totten," I found out during the afternoon my mistake as it was not Off. Totten; the correct party name is "Mack" who employed by the Graphic discription of him, being 6' gray hair weight about 180# reddish complexion; small gray mustach, wears brown over coat and light gray Fedora Hat age about 47 yrs and one would certainly take him for an Ex Cop; Trusting you will excuse my error as I do not wish to misquote any one wrong nor make a statement I cannot prove.
I just took for granted he was Totten owing to hearing some one point him out & a party in the morning, and not being in a position to ask names I therefore will certainly watch my step hereafter, and seeing this "Mack" around during the afternoon and knowing Totten was in Court there of course I knew my error, but was anxious to get the news to you knowing Reiss Trusting you will be satisfied with the above and

(7) 105.2331 p2

Just I shall not ever again.

Mr Griffin all Mr Gregory needs to do is to either lift his hat as he passes me or take his handkerchief out and wipe his face then I shall at a safe distance wait him and connect with him away from the Court House district.

I did not receive the $15.00 for check I sent you but had enough to get there on until Saturday Evening.

Please do not think I am dunning you for money as I know the great strain you are under and your time is more than filled up, but you can take from me there will never be a conviction in this case, now I do not wish to call you upon party who had dope, would if you suggest Mrs Gregory go where you are at any hour of the night if you so desired, or could in the close way connect with Gregory and no one would ever suspect me. Trusting I have fully explained to your entire satisfaction my error in Saturday's Report
